INDEPENDENT AUDITORS' REPORT

Ms. Toni Hamlin, Superintendent,
and Members of the Evangeline Parish School Board
Ville Platte, Louisiana

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Evangeline Parish School Board (the School Board), as of and for the year ended June 30, 2010, which collectively comprise the School Board's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the School Board's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School Board, as of June 30, 2010, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated December 15, 2010, on our consideration of the School Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The required supplementary information on pages 38 through 40 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

The Evangeline Parish School Board has not presented management's discussion and analysis that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be a part of, the basic financial statements.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School Board's financial statements as a whole. The other supplementary information on pages 42-61 and the schedules required by state law on pages 74-91 are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards on pages 67-68 is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations", and is also not a required part of the basic financial statements. The other supplementary information on pages 42-61 and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The schedules required by state law on pages 74-91 have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Notes to Basic Financial Statements

(1) Summary of Significant Accounting Policies

The accompanying financial statements of the Evangeline Parish School Board (School Board) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. In the government-wide financial statements, Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions on or before November 30, 1989 have been applied unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsection of this note.

The School Board was created by Louisiana Revised Statute (LRS-R.S.) 17:51 to provide public education for the children within Evangeline Parish. The School Board is authorized by LRS-R.S. 17:81 to establish policies and regulations for its own government consistent with the laws of the State of Louisiana and the regulations of the Louisiana Board of Elementary and Secondary Education. The School Board is comprised of thirteen members who are elected from thirteen districts for terms of four years.

The School Board operates twelve schools within the parish with a total enrollment of 6,013 pupils. In conjunction with the regular educational programs, some of these schools offer special education and/or adult education programs. In addition, the School Board provides transportation and school food services for the students.

A. Financial Reporting Entity

For financial reporting purposes, the School Board includes all funds and activities for which the School Board exercises financial accountability. Because the School Board members are independently elected and are solely accountable for fiscal matters, which include (1) budget authority, (2) responsibility for funding deficits and operating deficiencies, and (3) fiscal management for controlling the collection and disbursement of funds, the School Board is a separate governmental reporting entity, primary government.

B. Basis of Presentation

Government-Wide Financial Statements (GWFS)

The statement of net assets and the statement of activities display information about the School Board, the primary government, as a whole. They include all funds of the reporting entity, which are considered to be governmental activities. Fiduciary funds are not included in the GWFS. Fiduciary funds are reported only in the Statement of Fiduciary Assets and Liabilities at the fund financial statement level.

EVANGELINE PARISH SCHOOL BOARD
Ville Platte, Louisiana

Notes to Basic Financial Statements (Continued)

The statement of activities presents a comparison between direct expenses and program revenues for each function of the School Board's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements

The accounts of the School Board are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a separate set of self-balancing accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements. Fund financial statements report detailed information about the School Board.

The various funds of the School Board are classified into two categories: governmental and fiduciary. The emphasis on fund financial statements is on major funds, each displayed in a separate column. A fund is considered major if it is the primary operating fund of the School Board or meets the following criteria:

- a. Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and
- b. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The School Board reports the following major governmental funds:

The General Fund is the general operating fund of the School Board. It accounts for all financial resources except those required to be accounted for in other funds.

Title I Fund – accounts for grant revenues to be used for educationally deprived children.

VPHS QZAB Capital Projects Fund – to fund equipping, rehabilitation and repairs to Ville Platte High School.

Additionally, the School Board reports the following fund types:

Notes to Basic Financial Statements (Continued)

Special Revenue Funds

Special revenue funds account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. These funds account for the revenues and expenditures related to federal, state and local grant and entitlement programs.

Debt Service Funds

Debt service funds, established to meet requirements of bond ordinances, are used to account for the accumulation of resources for and the payment of general long-term debt principal, interest, and related costs.

Capital Projects Funds

Capital projects funds account for financial resources received and used to acquire, construct, or improve capital facilities not reported in other governmental funds.

Fiduciary Funds -

Fiduciary funds account for assets held by the government in a trustee capacity or as an agent on behalf of other funds within the School Board. The funds accounted for in this category by the School Board are the agency funds. The agency fund is as follows:

School Activity Fund – accounts for assets held by the School Board as an agent for the individual schools and school organizations.

C. Measurement Focus/ Basis of Accounting

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied.

Measurement Focus

In the government-wide statement of net assets and the statement of activities, the governmental activities are presented using the economic resources measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net assets (or cost recovery), and financial position. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. In the fund financial statements, the “current financial resources” measurement focus is used. Under this measurement focus, only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

Notes to Basic Financial Statements (Continued)

Basis of Accounting

In the government-wide statement of net assets and statement of activities, the governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized in accordance with the requirements of GASB Statement No. 33 "Accounting and Financial Reporting for Nonexchange Transactions."

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means, being collectible within the current period or within 60 days after year-end. Expenditures (including facilities acquisition and construction) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

Program revenues

Program revenues included in the Statement of Activities are derived directly from the program itself or from parties outside the School Board's taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the School Board's general revenues.

Allocation of indirect expenses

The School Board reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses of other functions are not allocated to those functions, but are reported separately in the Statement of Activities. Depreciation expense is specifically identified by function and is included in the direct expense of each function. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

The governmental funds use the following practices in recording revenues and expenditures:

Revenues

Federal and state entitlements (unrestricted grants-in-aid, which include state equalization and state revenue sharing) are recorded when available and measurable. Expenditure-driven federal and state grants, which are restricted as to the purpose of the expenditures, are recorded when the reimbursable expenditures have been incurred.

EVANGELINE PARISH SCHOOL BOARD
Ville Platte, Louisiana

Notes to Basic Financial Statements (Continued)

Ad valorem taxes are recorded in the year the taxes are due and payable. Ad valorem taxes are assessed in December, by the Parish Assessor, based on the assessed value and become due on December 31st of each year. The taxes become delinquent on January 1st. An enforceable lien attaches to the property as of January 31st. The taxes are generally collected in December, January, and February of the fiscal year. Property tax revenues are recognized when levied to the extent that they result in current receivables. Such amounts are measurable and available to finance current operations.

Interest income on time deposits and revenues from rentals, leases, and royalties are recorded when earned.

Sales and use tax revenues are recorded in the month collected by the School Board.

Substantially all other revenues are recorded when received.

Expenditures

Salaries are recorded as expenditures when incurred. Nine-month employee salaries are incurred over a nine-month period but paid over a twelve-month period.

Compensated absences are recognized as expenditures when leave is actually taken or when employees (or heirs) are paid for accrued leave upon retirement or death.

Principal and interest on general long-term obligations are not recognized until due.

All other expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

Other Financing Sources (Uses)

Transfers between funds that are not expected to be repaid, (or any other types, such as capital lease transactions, sales of capital assets, debt extinguishments, long-term debt proceeds, et cetera), are accounted for as other financing sources (uses). These other financing sources (uses) are recognized at the time the underlying events occur.

D. Assets, Liabilities and Equity

Cash and interest-bearing deposits

For purposes of the Statement of Net Assets, cash and interest-bearing deposits include all demand deposits, money market accounts, and time deposits of the School Board, which are stated at cost.

EVANGELINE PARISH SCHOOL BOARD
Ville Platte, Louisiana

Notes to Basic Financial Statements (Continued)

Investments

Under state law the School Board may deposit funds with a fiscal agent organized under the laws of the State of Louisiana, the laws of any other state in the union, or the laws of the United States. The School Board may invest in United States bonds, treasury notes and bills, government backed agency securities, or certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. In addition, local governments in Louisiana are authorized to invest in the Louisiana Asset Management Pool (LAMP), a nonprofit corporation formed by the State Treasurer and organized under the laws of the State of Louisiana, which operates a local government investment pool. Investments are stated at amortized cost.

Interfund receivables and payables

During the course of operations, numerous transactions occur between individual funds that may result in amounts owed between funds. Those related to goods and services type transactions are classified as "due to and from other funds." Short-term interfund loans are reported as "interfund receivables and payables." Long-term interfund loans (noncurrent portion) are reported as "advances from and to other funds." Interfund receivables and payables between funds within governmental activities are eliminated in the Statement of Net Assets.

Receivables

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Major receivable balances for the governmental activities include ad valorem taxes, sales and use taxes, and federal and state grants.

Inventories

Inventory of the School Food Service Special Revenue Fund consists of food purchased by the School Board and commodities granted by the United States Department of Agriculture through the Louisiana Department of Education. The commodities are recorded as revenues and expenditures when received. All inventory items purchased are valued at cost (first-in, first-out), and donated commodities are assigned values based on information provided by the United States Department of Agriculture.

EVANGELINE PARISH SCHOOL BOARD
Ville Platte, Louisiana

Notes to Basic Financial Statements (Continued)

Capital Assets

The accounting treatment over property, plant and equipment (capital assets) depends on whether they are reported in the government-wide or fund financial statements.

In the government-wide financial statements, capital assets are capitalized at historical cost, or estimated historical cost if actual is unavailable, except for donated assets, which are recorded at their estimated fair value at the date of donation. The School Board maintains a threshold level of \$5,000 or more for capitalizing equipment and vehicles and \$100,000 for capitalizing buildings and improvements.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Assets. Depreciation is provided over the assets' estimated useful life using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Vehicles	5 years
Equipment	5-10 years
Buildings and improvements	20-40 years

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

In the fund financial statements, capital assets used in governmental fund operations are accounted for as facilities acquisition and construction expenditures of the governmental fund upon acquisition.

The School Board does not possess any material amounts of infrastructure capital assets, such as sidewalks and parking lots. Amounts expended for such items prior to June 30, 2002 were considered to be part of the cost of buildings and improvements. In the future, if such items are built or constructed, and appear to be material in cost compared to all capital assets, they will be capitalized and depreciated over their estimated useful lives as with all other depreciable capital assets.

Compensated Absences

Twelve-month employees earn from 5 to 10 days of vacation leave each year, depending on their length of service with the School Board. Vacation leave cannot be accumulated. All School Board employees earn from 10 to 12 days of sick leave each year, depending upon the number of months employed. Sick leave can be accumulated without limitation. Upon retirement or death, unused sick leave of up to 25 days is paid to the employee or heirs at the employee's current rate of pay, and all unused sick leave is used in the retirement benefit computation as earned service.

EVANGELINE PARISH SCHOOL BOARD
Ville Platte, Louisiana

Notes to Basic Financial Statements (Continued)

Sabbatical leave may be granted for rest and recuperation and for professional and cultural improvement. Any employee with a teaching certificate is entitled, subject to approval by the School Board, to one semester of sabbatical leave after three years of continuous service or two semesters of sabbatical leave after six or more years of continuous service. Due to its restrictive nature, sabbatical leave benefits are recorded as expenditures in the period taken and no liability is recorded in advance of the sabbatical.

For fund financial statements, vested or accumulated sick leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a current fund liability of the governmental fund that will pay it. In the government-wide statements, amounts of vested or accumulated sick leave that are not expected to be liquidated with expendable available financial resources are recorded as long-term debt. No expenditure is reported for these amounts.

In accordance with the provisions of Statement No. 16, of the Governmental Accounting Standards Board, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulating rights to receive vacation pay. A liability has been recorded for up to 25 days of accumulated sick leave for those employees eligible for retirement as of June 30, 2010.

At June 30, 2010, employees of the School Board have accumulated and vested \$1,877,111 of compensated absence benefits.

Long-term debt

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements. Since the School Board doesn't have a proprietary fund, all School Board long-term debt is used in governmental fund operations.

All long-term debt to be repaid from governmental resources is reported as liabilities in the government-wide statements. The long-term debt consists primarily of general obligation bonds.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources net of the applicable premium or discount and payment of principal and interest reported as expenditures. For fund financial reporting, issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

EVANGELINE PARISH SCHOOL BOARD

Notes to Basic Financial Statements (Continued)

Equity Classifications

In the government-wide statements, equity is classified as net assets and displayed in three components:

- a. Invested in capital assets, net of related debt – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowing that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net assets – Consists of net assets with constraints placed on the use either by (1) external groups, such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net assets – All other net assets that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

In the fund financial statements, governmental fund equity is classified as fund balance. Fund balance is further classified as reserved and unreserved, with unreserved further split between designated and undesignated.

E. Budget Practices

Proposed budgets are prepared on a basis consistent with generally accepted accounting principles (GAAP) and are presented to the School Board by the Superintendent prior to the commencement of each fiscal year. After public hearings, the proposed budgets, after any amendments deemed necessary, are adopted by the Board. Budgetary amendments are processed in the same manner. Budgets are prepared only for the General Fund and all Special Revenue Funds. All appropriations lapse at the end of each fiscal year.

F. Revenue Restrictions

The School Board has various restrictions placed over certain revenue sources from state or local requirements. The primary restricted revenue sources include:

<u>Revenue Source</u>	<u>Legal Restrictions on Use</u>
Sales tax	See Note 9
Ad valorem taxes	See Note 3

The School Board uses unrestricted resources only when restricted resources are fully depleted.

EVANGELINE PARISH SCHOOL BOARD
Ville Platte, Louisiana

Notes to Basic Financial Statements (Continued)

G. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

(2) Cash and Interest-Bearing Deposits

Under state law, the School Board may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. The School Board may invest in certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. At June 30, 2010, the School Board has cash and interest-bearing deposits (book balances) totaling \$19,820,447 as follows:

	Governmental Activities	Fiduciary Funds	Total
Demand deposits	\$ -	\$ 22,404	\$ 22,404
Money market and savings accounts	11,314,993	505,232	11,820,225
Time deposits	7,950,000	27,818	7,977,818
Total	<u>\$19,264,993</u>	<u>\$ 555,454</u>	<u>\$ 19,820,447</u>

Custodial credit risk for deposits is the risk that in the event of the failure of a depository financial institution, the School Board's deposits may not be recovered or will not be able to recover collateral securities that are in the possession of an outside party. These deposits are stated at cost, which approximates market. Under state law these deposits (or the resulting bank balances) must be secured by federal deposit insurance or similar federal security or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. Deposit balances (bank balances) at June 30, 2010, were secured as follows:

Bank balances	<u>\$21,040,584</u>
Federal deposit insurance	984,503
Pledged securities (category 3)	<u>20,056,081</u>
Total	<u>\$21,040,584</u>

EVANGELINE PARISH SCHOOL BOARD
Ville Platte, Louisiana

Notes to Basic Financial Statements (Continued)

Pledged securities in the amount of \$20,056,081 were exposed to custodial credit risk. These securities include uninsured or unregistered investments for which the securities are held by the bank, or by its trust department or agent, but not in the School Board's name. Even though the pledged securities are considered uncollateralized (Category 3), Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the School Board that the fiscal agent has failed to pay deposited funds upon demand. The School Board does not have a policy for custodial credit risk.

(3) Ad Valorem Taxes

Ad valorem taxes attach as an enforceable lien on property as of January 1 of each year. During the fiscal year ended June 30, 2010, taxes were levied by the School Board in July and were billed to taxpayers by the Assessor in December. Billed taxes are due by December 31st, becoming delinquent on January 1st of the following year.

The taxes are based on assessed values determined by the Tax Assessor and are collected by the Sheriff. The taxes are remitted to the School Board net of deductions for Pension Fund contributions.

For the year ended June 30, 2010, ad valorem taxes totaling 57.99 mills were levied on property with net assessed valuations totaling \$168,009,941 and were dedicated as follows:

Parish wide taxes constitutional	4.67 mills
Special school taxes:	
Special tax for salaries and benefits of teachers and other employees in the school system	10.35 mills
Maintenance taxes, by district:	
No. 2 Maintenance	12.32 mills
No. 7 Maintenance	12.38 mills
Debt retirement:	
Special School District No. 7	16.25 mills
Improvement taxes, by school:	
Basile High School athletic department	<u>2.02 mills</u>
Total	<u>57.99</u>

Net taxes remitted to the School Board, after deductions for pension expense and collection fees, amounted to \$5,136,939 for the year ending June 30, 2010. Protest taxes remitted to the School Board in previous years in the amount of \$104,238 are recorded in the General Fund as deferred revenue.

(6) Accounts, Salaries, and Other Payables

At June 30, 2010, accounts, salaries, and other payables of \$6,814,800 consisted of the following:

Salaries and withholdings	\$ 6,297,793
Accounts payable	<u>517,007</u>
Totals	<u>\$ 6,814,800</u>

(7) Long-Term Liabilities

The School Board issues general obligation bonds, secured by ad valorem taxes and excess revenues, to provide for the acquisition and construction of major capital facilities. The bonds are liquidated by debt service funds. These bonds are direct obligations and pledge the full faith and credit of the Board and are generally issued as 20 or 30-year serial bonds. All of the School Board's long-term debt is associated with governmental activities.

Long-term debt currently outstanding is as follows:

General obligation bonds, including Louisiana Qualified Zone Academy Bonds (QZAB):

<u>Issued Amount</u>	<u>Issue Date</u>	<u>Final Maturity Date</u>	<u>Interest Rates</u>	<u>Balance Outstanding</u>
\$ 2,253,000	10/20/08	03/01/18	3.49	\$1,880,000

(8) Post-Retirement Health Care and Life Insurance Benefits

From an accrual accounting perspective, the cost of postemployment healthcare benefits should be associated with the periods in which the cost occurs, rather than in the future year when it will be paid. In adopting the requirements of GASB Statement No. 45, Accounting and Financial Reporting by Employers for Post Employment Benefits Other than Pensions, during the year ended June 30, 2009, the School Board began to recognize the cost of postemployment healthcare in the year when employee services are received, to report the accumulated liability from prior years, and to provide information useful in assessing potential demands on the School Board's future cash flows. Because the School Board is adopting the requirements of GASB Statement No. 45 prospectively, recognition of the liability accumulated from prior years will be phased in over 30 years, commencing with the 2009 liability.

Plan Description: The Evangeline Parish School Board offers continuing health care and life insurance benefits for certain retired employees. Medical benefits are provided to employees upon actual retirement. Eligibility for medical coverage is based on the following: early retirement - 20 years of service at any age; 30 years of service at any age; age 55 and 25 years of service; or, age 60 and 5 years of service. Coverage is also provided to spouses of retirees who are currently receiving benefits. These benefits are provided through the Louisiana Office of Group Benefits (OGB) and involve several statewide networks and one HMO, with a premium structure by region. The OGB issues a separate financial report which is available at www.groupbenefits.org along with the plan provisions contained in the official plan documents of the OGB. The OGB plan is a fully insured, multiple-employer arrangement and has been deemed to be an *agent multiple-employer plan* (within the meaning of paragraph 22 of GASB 45) for financial reporting purposes.

Funding Policy: The Evangeline Parish School Board recognizes the cost of providing post-employment medical and life benefits as an expenditure when the monthly premiums are due. The benefits are financed on a pay-as-you-go basis. The monthly premiums for the health benefit are paid jointly by the employee and employer. The percentage of the premium paid the school board ranges from 19% to 75% depending on years of participation. Life insurance coverage under the OGB program is available to retirees by election and the premium is \$0.96 per unit of insurance per month. The employer pays 50% of the "cost" of the retiree life insurance.

Annual OPEB Cost: The School Board's annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years. The School Board utilizes the level-dollar amortization method to amortize the unfunded actuarial accrued liability.

EVANGELINE PARISH SCHOOL BOARD
Ville Platte, Louisiana

Notes to Basic Financial Statements (Continued)

The following table shows the components of the School Board's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the School Board's net OPEB obligation:

Annual required contribution	\$5,536,223
Interest on net OPEB obligation	109,802
Adjustment to annual required contribution	<u>(158,746)</u>
Annual OPEB cost (expense)	5,487,279
Contributions made	<u>(3,524,437)</u>
Increase in net OPEB obligation	1,962,842
Net OPEB obligation - beginning of year	<u>2,745,046</u>
Net OPEB obligation - end of year	<u>\$4,707,888</u>

Evangeline Parish School Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation as of 2009 and 2010 follows:

Fiscal Year Ended	Discount Rate	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
6/30/2008	N/A	N/A	N/A	N/A
6/30/2009	4.00%	\$5,536,223	50.42%	\$2,745,046
6/30/2010	4.00%	\$5,487,279	64.23%	\$4,707,888

Funded Status and Funding Progress: The funded status of the plan as of June 30, 2010 was as follows:

Actuarial accrued liability (AAL)	\$65,599,398
Actuarial valuation of plan assets	<u>-</u>
Unfunded actuarial accrued liability (UAAL)	<u>\$65,599,398</u>
Funded ratio (actuarial value of plan assets/AAL)	0%

Actuarial valuations for an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Actuarially determined amounts are subject to continuous revision as actual results are compared to past expectations and new estimates about the future are formulated. Although the valuation results are based on values which the School Board's actuarial consultant believes are reasonable assumptions, the valuation results reflect a long-term perspective and, as such, are merely an estimate of what future costs may actually be. Deviations in any of several factors, such as future interest rates, medical cost inflation, Medicare coverage, and changes in marital status, could result in actual costs being less or greater than estimated.

Notes to Basic Financial Statements (Continued)

The schedule of funding progress included in required supplementary information following the notes to the financial statements presents multi-year trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits. Because GASB Statement No. 45 allows biannual valuations, only two years are presented in the schedule at this time. In future years, required trend data will be presented.

Actuarial Methods and Assumptions: Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2009 actuarial valuation, the projected unit credit actuarial cost method was used. The significant actuarial assumptions used in the valuation of the plan are as follows:

1. Investment return of 4.0% per annum, compounded annually.
2. 60% of employees who elect coverage while in active employment and who are eligible for retiree medical benefits are assumed to elect continued medical coverage in retirement. For those who elect coverage, it is assumed that they will continue to be covered by the same plan as retirees that they were while active.
3. 30% of members electing coverage are assumed to also elect coverage for a spouse.
4. Medical Inflation

(9) Sales and Use Taxes

The School Board receives sales and use tax revenues from two sales and use tax levies, as follows:

- A. On March 5, 2001, the voters of the parish approved a one percent perpetual sales and use tax to be levied by the School Board. The proceeds of the tax are used to supplement other revenues available to the School Board to pay salaries of teachers and other school employees, including the payment of benefits for teachers and other school employees in accordance with the proposed "Year 2001 Salary Increase Proposal".
- B. On May 20, 1967, the voters of the parish approved a one percent perpetual sales and use tax to be levied by the School Board. The proceeds of the tax are used to supplement other revenues available to the School Board to pay salaries of teachers and the expenses of operating the public schools of Evangeline Parish.

(10) Retirement Plans

Substantially all employees of the School Board are members of two statewide retirement systems. In general, professional employees (such as teachers and principals) and lunchroom workers are members of the Teachers' Retirement System of Louisiana; other employees, such as custodial personnel and bus drivers are members of the Louisiana School Employees' Retirement System. These systems are cost sharing, multiple-employer defined benefit pension plans administered by separate boards of trustees. Pertinent information relative to each plan follows:

A. Teachers' Retirement System of Louisiana (TRS)

Plan Description: The School Board participates in three membership plans of the TRS, the Regular Plan, ORP and Plan A. Ten years of service credit is required to become vested for retirement benefits and five years to become vested for disability and survivor benefits. Benefits are established and amended by state statute. The TRS issues a publicly available financial report that includes financial statements and required supplementary information for the TRS. That report may be obtained by writing to the Teachers' Retirement System of Louisiana, Post Office Box 94123, Baton Rouge, Louisiana 70804-9123, or by calling (225) 925-6446.

Funding Policy: Plan members are required to contribute 8.0% of their annual covered salary for the Regular Plan and ORP and 9.1% of covered salary for Plan A. The School Board is required to contribute at an actuarially determined rate. The current rate is 15.5% of annual covered salary for the Regular Plan and Plan A and 16.6% of annual covered salary for ORP. Member contributions and employer contributions for the TRS are established by state law and rates are established by the Public Retirement Systems' Actuarial Committee. The School Board's employer contribution to the TRS, as provided by state law, is funded by the State of Louisiana through annual appropriations, by deductions from local ad valorem taxes, and by remittances from the School Board.

EVANGELINE PARISH SCHOOL BOARD
Ville Platte, Louisiana

Notes to Basic Financial Statements (Continued)

The School Board's contributions to the system for the years ended June 30, 2010, 2009, and 2008 were \$4,647,475, \$4,633,961, and \$4,794,231, respectively, equal to the required contributions for each year.

B. Louisiana School Employees' Retirement System (LASERS)

Plan Description: The LASERS provides retirement benefits as well as disability and survivor benefits. Ten years of service credit is required to become vested for retirement benefits and five years to become vested for disability and survivor benefits. Benefits are established and amended by state statute. The LASERS issues a publicly available financial report that includes financial statements and required supplementary information for the LASERS. That report may be obtained by writing to the Louisiana School Employees' Retirement System, Post Office Box 44516, Baton Rouge, Louisiana 70804-4516, or by calling (225) 925-6484.

Funding Policy: Plan members are required to contribute 7.5% of their annual covered salary and the school board is required to contribute at an actuarially determined rate. The current rate is 17.6% of annual covered payroll. Member contributions and employer contributions for the LASERS are established by state law and rates are established by the Public Retirement Systems' Actuarial Committee. The School Board's employer contribution for the LASERS is funded by the State of Louisiana through annual appropriations.

The School Board's contributions to the system for the years ended June 30, 2010, 2009, and 2008 were \$358,790, \$392,362 and \$396,939, respectively, equal to the required contributions for each year.

Notes to Basic Financial Statements (Continued)

(11) Risk Management

The School Board is exposed to risks of loss in areas of general and auto liability, property hazards and worker's compensation. All of these risks are handled by purchasing commercial insurance coverage. There have been no significant reductions in the insurance coverage during the year.

(12) Commitments and Contingencies

A. Contingent Liabilities

At June 30, 2010, the School Board was a defendant in lawsuits principally arising from the normal course of operations. The School Board's legal counsel has reviewed the School Board's claims and lawsuits in order to evaluate the likelihood of an unfavorable outcome to the School Board. It is the opinion of the School Board, after conferring with legal counsel, that the liability, if any, which might arise from these lawsuits would not have a material adverse effect on the School Board's financial position.

B. Grant Audits

The School Board receives grants for specific purposes that are subject to review and audit by governmental agencies. Such audits could result in a request for reimbursement by the grantor for expenditures disallowed under the terms and conditions of the appropriate agency. In the opinion of the School Board, such disallowances, if any, will not be significant.

(13) Fund Balances Reserved/Designated

Fund balances have been reserved/designated for the following purposes:

Governmental fund balances reserved for:

Special revenue funds -

Transfers are used to (a) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and to (b) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

(17) New Accounting Pronouncements

The Governmental Accounting Standards Board (GASB) issued Statement 54 "Fund Balance Reporting and Governmental Fund Type Definitions." The School Board is required to implement this standard for the fiscal year ending June 30, 2011. The School Board has not yet determined the full impact that adoption of GASB Statement 54 will have on the financial statements.

(18) Subsequent Event Review

The School Board's management has evaluated subsequent events through December 15, 2010, the date which the financial statements were available to be issued.

EVANGELINE PARISH SCHOOL BOARD
Ville Platte, Louisiana

Notes to Basic Financial Statements (Continued)

(19) Subsequent Event

The Boards of the Teachers' Retirement System of Louisiana (TRSL) and the Louisiana School Employees' Retirement System (LSERS) approved employer rate increases for the 2010-2011 school year from 15.5% to 20.2% and 17.6% to 24.3%, respectively. The rate increases will cost the School Board approximately \$1,500,000 annually. All rate proposals must first go to Public Employees Retirement System Actuarial Committee (PERSAC), which is the actuarial committee entrusted with approving rate increases for all of the Louisiana retirement systems. Their recommendation must then be approved by the Legislature. In the past, PERSAC has rarely rejected the retirement systems' proposals and the Legislature has never turned down PERSAC's recommendation. The increases for 2010-2011 have already been approved.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Ms. Toni Hamlin, Superintendent,
and Members of the Evangeline Parish School Board
Ville Platte, Louisiana

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Evangeline Parish School Board, (the School Board) as of and for the year ended June 30, 2010, which collectively comprise the School Board's basic financial statements and have issued our report thereon dated December 15, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the School Board's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School Board's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the School Board's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified a certain deficiency in internal control over financial reporting, described in the accompanying summary schedule of current and prior year audit findings and corrective action plan as item 10-1(IC), that we consider to be a significant deficiency in internal control over financial reporting. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School Board's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

The Evangeline Parish School Board's response to the findings identified in our audit is described in the accompanying summary of current and prior year audit findings and corrective action plan. We did not audit the School Board's response and, accordingly express no opinion on it.

This report is intended solely for the information of the School Board, the School Board's management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Ms. Toni Hamlin, Superintendent,
and Members of the Evangeline Parish School Board
Ville Platte, Louisiana

Compliance

We have audited the Evangeline Parish School Board's (the School Board) compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of the School Board's major federal programs for the year ended June 30, 2010. The School Board's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the School Board's management. Our responsibility is to express an opinion on the School Board's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School Board's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the School Board's compliance with those requirements.

In our opinion, the Evangeline Parish School Board complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

Management of the Evangeline Parish School Board is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the School Board's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School Board's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended for the information of the School Board, the School Board's management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

INDEPENDENT ACCOUNTANTS' REPORT ON APPLYING AGREED-UPON PROCEDURES

Ms. Toni Hamlin, Superintendent,
and Members of the Evangeline Parish School Board
Ville Platte, Louisiana

We have performed the procedures included in the Louisiana Governmental Audit Guide and enumerated below, which were agreed to by management of the Evangeline Parish School Board and the Legislative Auditor, State of Louisiana, solely to assist users in evaluating management's assertions about the performance and statistical data accompanying the annual financial statements of the Evangeline Parish School Board and to determine whether the specified schedules are free of obvious errors and omissions as provided by the Board of Elementary and Secondary Education. The management of the Evangeline Parish School Board is responsible for its performance and statistical data. This agreed-upon procedures engagement was performed in accordance with attestation standards established by the American Institute of Certified Public Accountants and applicable standards of Government Auditing Standards. The sufficiency of these procedures is solely the responsibility of the specified users of the report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Our procedures and findings relate to the accompanying schedules of supplemental information and are as follows:

General Fund Instructional and Support Expenditures and Certain Local Revenue Sources (Schedule 1)

1. We selected a random sample of 25 transactions and reviewed supporting documentation to determine if the sampled expenditures/revenues are classified correctly and are reported in the proper amounts for each of the following amounts reported on the schedule:

- Total General Fund Instructional Expenditures,
- Total General Fund Equipment Expenditures,
- Total Local Taxation Revenue,
- Total Local Earnings on Investment in Real Property,
- Total State Revenue in Lieu of Taxes,

- Nonpublic Textbook Revenue, and
- Nonpublic Transportation Revenue.

There were no exceptions noted.

Education Levels of Public School Staff (Schedule 2)

2. We reconciled the total number of full-time classroom teachers per the schedule "Experience of Public Principals, Assistant Principals, and Full-time Classroom Teachers" (Schedule 4) to the combined total number of full-time classroom teachers per this schedule and to school board supporting payroll records as of October 1st.

There were no exceptions noted.

3. We reconciled the combined total of principals and assistant principals per the schedule "Experience of Public Principals, Assistant Principals, and Full-time Classroom Teachers" (Schedule 4) to the combined total of principals and assistant principals per this schedule.

There were no exceptions noted.

4. We obtained a list of full-time teachers, principals, and assistant principals by classification as of October 1st and as reported on the schedule. We traced a random sample of 25 teachers to the individual's personnel file and determined if the individual's education level was properly classified on the schedule.

There were no exceptions noted.

Number and Type of Public Schools (Schedule 3)

5. We obtained a list of schools by type as reported on the schedule. We compared the list to the schools and grade levels as reported on the Title 1 Grants to Local Educational Agencies (CFDA 84.010) application and/or the National School Lunch Program (CFDA 10.555) application.

There were no exceptions noted.

Experience of Public Principals, Assistant Principals and Full-time Classroom Teachers (Schedule 4)

6. We obtained a list of full-time teachers, principals, and assistant principals by classification as of October 1st and as reported on the schedule and traced the same sample used in procedure 4 to the individual's personnel file and determined if the individual's experience was properly classified on the schedule.

There were no exceptions noted.

Public School Staff Data: Average Salaries (Schedule 5)

7. We obtained a list of all classroom teachers including their base salary, extra compensation, and ROTC or rehired retiree status as well as full-time equivalent as reported on the schedule and traced a random sample of 25 teachers to the individual's personnel file and determined if the individual's salary, extra compensation, and full-time equivalents were properly included on the schedule.

There were no exceptions noted.

8. We recalculated the average salaries and full-time equivalents reported in the schedule.

There were no exceptions noted.

Class Size Characteristics (Schedule 6)

9. We obtained a list of classes by school, school type, and class size as reported on the schedule and reconciled school type classifications to Schedule 3 data, as obtained in procedure 5. We then traced a random sample of 10 classes to the October 1st roll books for those classes and determined if the class was properly classified on the schedule.

There were no exceptions noted.

Louisiana Educational Assessment Program (LEAP) (Schedule 7)

10. We obtained test scores as provided by the testing authority and reconciled scores as reported by the testing authority to scores reported in the schedule by the Evangeline Parish School Board.

There were no exceptions noted.

Graduation Exit Exam (GEE) (Schedule 8)

11. We obtained test scores as provided by the testing authority and reconciled scores as reported by the testing authority to scores reported in the schedule by the Evangeline Parish School Board.

There were no exceptions noted.

iLEAP Tests (Schedule 9)

12. We obtained test scores as provided by the testing authority and reconciled scores as reported by the testing authority to scores reported in the schedule by the Evangeline Parish School Board.

There were no exceptions noted.

We were not engaged to, and did not, perform an examination, the objective of which would be the expression of an opinion on management's assertions. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the use of management of the Evangeline Parish School Board, the Louisiana Department of Education, the Louisiana Legislature, and the Legislative Auditor, State of Louisiana, and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

Public School Staff Data
For the Year Ended June 30, 2010

	All Classroom Teachers	Classroom Teachers Excluding ROTC and Rehired Retirees
Average Classroom Teachers' Salary Including Extra Compensation	47,691	47,543
Average Classroom Teachers' Salary Excluding Extra Compensation	44,006	43,841
Number of Teacher Full-time Equivalents (FTEs) used in Computation of Average Salaries	437	426

Note: Figures reported include all sources of funding (i.e., federal, state, and local) but exclude employee benefits. Generally, retired teachers rehired to teach receive less compensation than non-retired teachers and ROTC teachers receive more compensation because of federal supplement. Therefore, these teachers are excluded from the computation in the last column. This schedule excludes day-to-day substitutes and temporary employees.
